Subject: Re-2: MACS SHIPPING SOUTHERN STAR WALVIS BAY RACE

hi dee and john,

thank you for your detailed instructions to everybody. in addition please request all competitors to supply drawings or photographs from which it is clearly visible where the slings must sit when the boat is lifted out of the water. in addition the owner should mark those places on his boat very clearly with water proof pens. we lost considerable time on this in walvis bay last year which we hope to avoid this time.

i am sending you an example, not quite as clear as i would like it to be because people stand in the way but you will see what i mean.

brgds, felix
